

re-CARPET™ is a comprehensive system for carpet replacement in occupied areas. It is the only dedicated system that can utilise both carpet tiles and broadloom carpet.

- **re-CARPET™** has been developed from more than 15 years of “hands on” experience and the combined expertise of Australia’s leading carpet consultants, 40 years of office fit-out experience and comprehensive relocations expertise.
- **re-CARPET™** is operated by full time experts who use this system every day.
- **re-CARPET™** is not limited to carpet tiles or to any one carpet manufacturer. Our unbiased expertise guarantees that you get what you need and not what manufacturers want to sell you.
- **re-CARPET™** warranties included the additional costs associated with carpet replacement in occupied areas. Other standard carpet warranties exclude these costs.
- **re-CARPET™** is 100% reliable because the system has been tested and refined for more than 10 years. Every project is closely supervised and built in contingencies cover problems that would slow down or stop other systems, eliminating the risk of not finishing on time.
- **re-CARPET™** is guaranteed not to disrupt the occupant’s staff or customers.

**No other system has the security, flexibility and reliability of
re-CARPET™**

**Making it the perfect system for major corporate and government
organisations through-out Australia.**
