

Non-disruptive carpet replacement in occupied areas

re-CARPET™ is a comprehensive system for carpet replacement in occupied areas. It is the only dedicated system that can utilise both carpet tiles and broadloom carpet.

Key benefits;

A system that works, every time.

re-CARPET™ is a comprehensive system operated by professionals on a full time basis. It delivers results on time, every time, just like “magic”.

We work when you don't.

re-CARPET™ is designed to fit up to 2 weeks of normal site works into a single weekend. We guarantee that during normal working hours the premises will look and operate like normal. Your staff and customers will simply see a progressive replacement of carpet that appears like “magic”.

Bottom line benefits.

re-CARPET™ delivers cost effective projects that directly benefit your company's bottom line. Avoiding the hidden costs of poor productivity and improving the aesthetics for your staff and customers is a bonus.

Unrivalled Expertise.

re-CARPET™ has been developed utilising more than 15 years of “hands on” experience and the combined expertise of Australia's leading carpet consultants, 40 years of office fit-out experience and comprehensive relocations expertise.

Your Choice of Carpet

re-CARPET™ does not restrict the choice of carpet manufacturer or carpet type. You can enjoy the look and feel of quality tufted and woven carpets or the rugged performance of carpet tiles. Our experts guide you through the selection to ensure that your short and long term needs are met. We will even custom design a carpet to meet your exact needs.

There's even more.

Almost any other fit-out works can be completed at the same time with the same efficiency and the same promises. In fact, our **re:FURBISH™** system is specifically designed for complete non-disruptive upgrades of occupied areas.
